

PROJECT FLOORS

the up-to-date company

P L A N F O R P E R F E C T I O N

in Education

Choose perfection.
Choose Project Floors.

Uniquely the best... the brand of success

Many high profile education facilities enjoy a truly stunning, creative and practical flooring solution without the high price tag.

Project Floors is proud to be a Kiwi owned and operated company.

Project Floors boast an expansive level of knowledge and experience within the New Zealand flooring industry.

Impressive stockholding surpassing most flooring suppliers assures you of no more indent hassles. We aim to guarantee delivery on time every time – because we care.

Your project can be managed from start to finish. We pride ourselves on the highest quality control and service standards.

“Meeting today’s demands to prepare for tomorrow’s future.”

We set trends for others to follow.

- Project Floors solution meets all the Ministry of Education standards.
- The built in underlay decreases noise enhancing acoustics by 30%. A Major component of noise management is floors. Project floors carpet tiles offer 10 times more efficiency in the reduction of noise levels increasing the ability of children to hear, concentrate and ability to learn. The superior underlay featured only in Project Floors solutions also decreases muscle fatigue resulting in higher comfort levels and a more ergonomic work environment.
- Project Floors has a solution for every area within your education facility catering to the practical demands of a classroom as well as creating a look and feel required in a reception area.
- Being anti-static Project Floors is the perfect solution for IT rooms and admin blocks.
- Project Floors solutions are Anti Microbial creating a hygienic and healthy environment especially beneficial for Allergy sufferers and Asthmatics.

EcoTX

NEXT GENERATION carpet tile is the cutting edge innovative solution. With no PVC, polyurethane, & fibreglass reinforced vinyl EcoTX not only outperforms it’s competitors with environmental friendliness but also in look and functionality.
